3/20/93

Dear Dick,

While I as ume it is some kind of mistake, I think I should let you know about the call from the manager of the local Walden's.

She says her buyer, which I take to mean Walden's, can't find the King book or any record of its existence.

I gave her the number from the copyright pagex and she said she'd call the buyer again.

Best,

Harold
